
MEDIA VISION USA

The Conference Company

Diplomacy Technology, Conferencing, Electronic Voting
and Simultaneous Interpretation Communications Solutions

Backgrounder

Media Vision USA, the sole distributor of Taiden and Close-Talk conference systems in the United States and Canada, provides a variety of integrated conferencing, electronic voting, and simultaneous interpretation products..

With high-level clients spanning a variety of different industries, Media Vision USA has provided conferencing solutions for boardrooms, city council chambers, lecture halls, distance learning centers, and a range of executive environments. Clients have included the United Nations, the World Bank, legislative office buildings, colleges and universities, as well as cities throughout North America.

Media Vision USA also works with rental and staging companies and has recently partnered with a leading US distributor of integrated audio and video systems.
